

RUCHITHA GADDALE

Java Full Stack Developer | AI & ML Engineer

+91 6303744478 • ruchithagaddale12@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and AI/ML Engineer with hands-on experience building scalable web applications, intelligent AI chatbots, and deep learning systems. Proficient in Python, React.js, and Flask, with strong expertise in cutting-edge AI technologies including LLMs, RAG, Generative AI, and AI Agents using n8n. Skilled in designing end-to-end solutions from data pipelines to responsive user interfaces. Passionate about developing impactful, high-performance products and contributing to innovative, fast-paced engineering teams.

PROJECTS

Resume Analysier using RAG | [GitHub](#)

- Developed an intelligent Resume Analyzer powered by Retrieval-Augmented Generation (RAG) that processes user resumes and job descriptions, leveraging embedding models and vector databases to extract relevant context and generate precise, explainable feedback for candidate evaluation.
- Technologies:** Python, Fastapi, OpenAI, HuggingFace, LLMs, RAG, Vector Embeddings, Tailwind CSS, Jupyter Notebook

Travel Planner using GENAI | [GitHub](#)

- Developed a full-stack AI-powered Travel Planner using Generative AI, integrating OpenAI GPT-3.5, LangChain, and FastAPI to generate personalized itineraries, hotel recommendations, food suggestions, and cost breakdowns through an interactive web interface.
- Technologies:** Python, Fastapi, OpenAI, HuggingFace, GenAI, HTML5, LLMs

AI Based Automated Text Summarization Tool | [GitHub](#)

- Transformer-based NLP techniques (BART, abstractive & extractive summarization) for automated text condensation, semantic understanding, and multi-source document processing, applied deep learning, sequence-to-sequence modeling, and attention mechanisms to build an end-to-end AI summarization system with multilingual support, classification, and data-driven insights generation.
- Technologies:** Python, Flask, HuggingFace, BART, Scikit-learn, TF-IDF, Naive Bayes, Pandas, PyPDF2, python-docx, BeautifulSoup, Requests, Matplotlib, Googletrans, HTML5, CSS3.

TECHNICAL SKILLS

- Programming Languages:** Python, Java
- Frontend Development:** React.js, HTML5, CSS3, JavaScript ES6+, Bootstrap
- Backend Development:** Flask, Node.js, Express.js
- Database Technologies:** MySQL Databases
- AI / ML & GenAI:** Machine Learning, Deep Learning, CNN, RNN, LLMs, RAG, Generative AI, HuggingFace, TensorFlow
- Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Render, n8n

EDUCATION

G. Pullaiah College of Engineering & Technology B.Tech in Computer Science & Engineering (Artificial Intelligence) CGPA: 8.18	2021 – 2025
Narayana Junior College, Kurnool Board of Intermediate Education 87%	2019 – 2021
Keshava Reddy Concept School, Kurnool Board of Secondary Education 95%	2018 – 2019

CERTIFICATIONS

Python for Data Science – IBM
ML Bootcamp – Make skilled
NPTEL Big Data
SQL Basics
